

GENERAL RULES AND REGULATIONS – As of 8.19.2024

NOTE: General rules and regulations apply to all competitive events and are in addition to each event's specific guidelines. Guidelines are subject to change. Please refer to the EdRising Membership Portal for the latest version.

Failure to follow the stated guidelines will result in disqualification of student competing.

All students wishing to compete at the Educators Rising National Conference must complete 3 required steps:

1. **Be an Active level paid national member** of Educators Rising for the current school year. State-level membership must be paid, if applicable. [Click here to join.](#)
2. **Complete the online application** and upload all required materials in their final form by the stated deadline on the [National Competition page](#) located in the Student Resources section in the EdRising Membership Portal. **This is NOT done automatically if you competed at a state or regional conference.**
3. [Register to attend](#) the Educators Rising National Conference.

Eligibility

- Students must be a paid Active-level student member of Educators Rising no later than **February 1st** of the year in which they are competing. **Check or credit card payment must be received in the National Office by February 15th to be considered an Active-level member.**
- **Students may only compete in one competitive event.**
- **For contests:** Teacher leaders may enter up to two entries (individual or dual) per school in each event per division.
 - Dual means two students participating.
 - For dual entries consisting of students of varying grade levels, the entry will be placed in the division for the grade level of the most senior member.
- **For competitions:** Teacher leaders may enter up to two entries per school in each individual event per division and one team for team events per division. Competitions/contests that are marked as individual or dual will be considered individual events for this purpose.
 - All team events must have at least two students (and no more than four) per school to qualify.
 - For teams consisting of students of varying grade levels, the team will be placed in the division for the grade level of the most senior member.
- If a competitor is from a state that holds state competitions/contests, they must first qualify in that given event at their state conference before competing in that event at the Educators Rising National Conference. Contact your state/regional coordinator to see if your state offers competitive events. Visit our [state program page](#) on the Educators Rising national website to contact your state/regional coordinator.
- For states that offer state-level competitive events, the top ten places in each competition for each division offered by the state will be eligible to compete at the Educators Rising National Conference.
- For contests, you must compete in a state level event in order to be eligible to compete at the Educators Rising National Conference. Only entries scoring 97-100 will be eligible to advance to nationals. No other entrants from states that offer the competitive events at the state level will be eligible for those state-level-offered competitive events.
- For nationals, schools are permitted to replace up to fifty percent of the original team members who qualified at the state- level.
- For states that do not offer state-level competitive events, students may register to compete in those events at the Educators Rising National Conference. This applies to all Educators Rising national competitions. This does not apply to contests since you must qualify at state first before moving to nationals in any competition.

GENERAL COMPETITION INFORMATION CONT.

- For example, if you want to compete in Public Speaking but place eleventh or lower in your state-level Public Speaking competition or don't compete in the state-level competitions at all — you, cannot compete in Public Speaking at the National Conference this year. If you live in a state that didn't hold a Public Speaking state-level competition, you may register to compete in that event at the Educators Rising National Conference.
- Students who have won state-level competitive events must also submit their entries on the national website by the deadline to compete at the national conference. Your state does not do this for you.

Division of Competition

- The breakdown of grades noted below is used to designate levels for competition entries. Not all competitions are open to all divisions.
 - Middle School — Grades 7, 8
 - High School Junior Varsity— Grades 9, 10
 - High School Varsity level — Grades 11, 12
 - Collegiate level – Undergraduates only
- Teams consisting of students from varying grade levels will be placed in the division for the grade level of the most senior member.

Application and Submission

- All submitted materials must reflect original work from the 2024-2025 school year. Material that may have been created or submitted in previous years is ineligible.

Deadline extensions will NOT be granted.

- **All competitions and contests require an online application submission even if no additional items need to be submitted.**
- For team competitions only one application should be submitted, all participating students are to be listed as team members in all places indicated on the application form.
- Each competition guideline will identify what materials are required for submission before the competition. Failure to submit the required materials by the submission deadline will result in disqualification. All submitted materials must be in their final form.

- All video files that are submitted in advance must be uploaded to either YouTube or Vimeo and be linked on the application form. Videos will not be accepted by mail. We recommend that all competitors also bring a copy of the video file on a USB drive to the conference. Educators Rising competitions comply with FERPA regarding student privacy and video security. Competitors are responsible for ensuring that their competition videos comply with local and state requirements regarding student privacy.
- Except when explicitly specified, the Internet may not be used during a competition presentation at the Educators Rising National Conference. All relevant files and resources should be brought to the competition site on a USB drive. All Prezi files should be downloaded to the USB drive. nonverbal assistance to a contestant during that contestant's assigned time slot with the judges. A breach of this guideline may result in the disqualification of the contestant.

- Teacher Leaders, Chaperones, and Parents are prohibited from approaching judges to discuss scoring or feedback. All questions or concerns should be brought to the attention of a national office staff member.

Judging and Scoring

- All competitions will be recorded to allow for review when determining placement.
- Scoring is based on the posted individual competition rubric.
- Final scores will be based on a scaled score. Scaled scores are calculated through a number of methods including judges tie breakers and room normalizations.
- **Judges will break ties in all competitive events.**
- To accommodate a large number of competitors, we use multiple rooms each with its own set of judges. To ensure fairness across these rooms, we employ a well-established mathematical method to normalize scores. This method helps balance judge subjectivity and ensures all competitors have a fair shot, regardless of their assigned room.
 - In each competitive event, each competitor gets an average score from the judges. That score is averaged with the partner judge. If there is a deviation of more than one standard deviation between rooms, the two rooms are normed against one another to that deviation. Final scores used for ranking are the normalized (also known as scaled scores).
 - When normalizing scoring, perfect scores will be excluded from the normalization process. If more than one student in the same division in the same competition receives a perfect score, a second set of judges will review the recorded presentations for those students to make a final decision.

Awards

- For Competitions: Medals and certificates will be presented to the top three entries in each division for individual competitions. Trophies and certificates will be presented to the top three entries in each division for team competitions. All places will receive electronic certificates after the conference.

- For Contests: Ribbons will be awarded to students in each category in each division with scores as follows:
 - Blue-Scores 98-100
 - Red-Scores 94-97
 - White-Scores 90-93

Inquiry Process

- Following the conference, the student scores will be released directly to the participating student(s). The scores will provide individual judges' scores, the average score for the two judges, and the normalized score (if necessary.)
- Students will have 3 business days to file an inquiry regarding the validity of their score. Students will be required to complete the online inquiry request form and submit all required documentation for consideration. **No appeal will be accepted after the 3-day period.**
- Staff will review the scoring and respond to the inquiry within 30 days. **All decisions are final.**

RESEARCHING LEARNING CHALLENGES COMPETITION

COMPETITION TYPE: Team — Closed to spectators

ELIGIBILITY LEVELS: High School Junior Varsity, High School Varsity, Collegiate

EDUCATORS RISING STANDARDS:

- Standard I: Understanding the Profession
- Standard II: Learning About Students
- Standard VI: Using Assessments and Data
- Standard VII: Engaging in Reflective Practice

Contest Purpose

Approximately 7.5 million students (15% of all public-school students) in American public schools have been diagnosed with learning disabilities and receive special education services. (Citation: <https://nces.ed.gov/programs/coe/indicator/cgg/students-with-disabilities>) Understanding how to support students with special needs is central to success as an educator. This competition offers Educators Rising students the opportunity to explore deeply and to develop recommendations regarding effective educational supports for students with special needs.

The Individuals with Disabilities Education Act (IDEA) groups students into fourteen disability categories. They are:

- | | |
|----------------------------|---|
| 1. Autism | 8. Orthopedic impairment |
| 2. Deaf-blindness | 9. Other health impairments |
| 3. Developmental delay | 10. Preschool disabled |
| 4. Emotional disturbance | 11. Specific learning disability (e.g., dyslexia) |
| 5. Hearing impairment | 12. Speech or language impairment |
| 6. Intellectual disability | 13. Traumatic brain injury |
| 7. Multiple disabilities | 14. Visual impairment |

This year's competition focuses on a specific learning disability called Cerebral Palsy.

Cerebral palsy (CP) is a group of conditions that affect a person's ability to move and maintain balance and posture. It's caused by damage to or abnormalities in the developing brain. The condition can significantly impact a child's learning experience in various ways:

- **Physical Challenges:** Difficulties with motor skills, fatigue, and pain can hinder participation in classroom activities.
- **Cognitive and Communication Challenges:** Attention difficulties, language impairments, and sensory processing disorders can interfere with learning.
- **Social and Emotional Challenges:** Low self-esteem, social isolation, and emotional regulation issues can impact learning and behavior.

Citation: <https://www.ncbi.nlm.nih.gov/books/NBK538147/> and cerebralpalsy.org.au

According to the Centers for Disease Control and Prevention (CDC), approximately 10 out of every 1,000 children in the United States have cerebral palsy.

The purpose of this competition is to work collaboratively to learn more about this specific learning challenge and to produce a research-supported position paper and presentation to explain and advocate for positive practices in schools to support the education of students with cerebral palsy. Imagine that the local school board has asked you: “What specific steps should we take to support the education of students with cerebral palsy? How can inclusive education be optimized for students with cerebral palsy? Also, why should we accept your recommendations?”

Team members should research cerebral palsy and best practices to support the education of students with this learning challenge. You are encouraged to embark on this research using traditional sources as well as primary sources (ex. conducting interviews with individuals impacted by this disability or professionals who support individuals with this disability, etc.). Then team members should discuss the research in order to determine recommendations for their paper and presentation.

Team members will collaborate on a research-supported position paper, which will be no shorter than four full pages and no longer than six full pages, to offer their recommendations. The minimum number of student collaborators is two, but there is no maximum. The position paper must include cited references (MLA, APA, or Chicago style are acceptable) and a works cited sheet, which will not count toward the four-to-six-page length requirement. (Also, the title page doesn’t count toward the length requirement. If you are unable to reach the minimum length required, resume the research process — there is a lot of quality material out there on this topic.) The position paper will be submitted with the competition application and will be scored by judges prior to the national conference.

Competition Guidelines

There are two components to this competition:

- *A position paper, submitted and scored by judges prior to the national conference, and*
- *An interactive session (including a presentation) with judges on-site at the national conference.*

- Team members will use the information collected in the research phase to collaborate in creating two products: a position paper and a slide deck presentation.
- The position paper will include a title page, a works cited page (using MLA, APA, or Chicago citation style), and four to six full pages of research-supported recommendations with appropriate context. The works cited and title pages will not count towards the four-to-six-page length. The position paper must be submitted online.
- The slide deck presentation (ex. PowerPoint, Prezi) should engagingly complement and deliver the team’s research findings and recommendations.
- At the Educators Rising National Conference, qualifying representatives (two to four students) must present to a panel of expert judges for up to 10 minutes about their research using the slide deck as their visual aid. Students will also respond to judges’ questions on the assigned topic and presentation; the entire interactive session with judges may last up to 15 minutes.
- Team members should bring the file of their slide deck on a USB drive.
